FDD Abstract of

1952 BUDGET OF THE MINISTRY OF HEAVY INDUSTRY (8 pp; German; 12 Oct 1951)

25X1X

In early 1952, the Ministry of Heavy Industry was renamed Ministry of Metallurgy and Ore Mining.

This photostated document is a tabular report on the fulfillment of the State Budget for the Ministry of Heavy Industry for the first three quarters of 1951. The first 6 pages report on the expenditures and the last two pages on the income.

b The table headings of the expenditures include the following: purpose; total amount; of the total; for investment; administrative costs (personnel and others); administrative expenditures appropriated for definite purpose, expenditures of institutions, expenditures of institutions appropriated for definite purposes, investments, turn-over costs, special expenditures, coverage of losses, payments from the operating fund, price subsidies. All items are given in planned and actual amounts.

The purposes for which money was spent under the budget include: safety measures and plant installations, the Ministry for Heavy Industry, SAG (Soviet Corporations) enterprises, central administrations for coal, power, metallurgy, chemicals, stones and earths, and construction and various training schools.

The table headings for the part on income include: <sup>purpose, total</sup> amount, investment, income of the administration, income of the institutions, profits, payments to the operating fund, refunds received. These amounts are also given in planned and actual amounts.

Total planned expenditures were 1,635,120,000 DM and 996,600 DM were actually spent. Total planned income was 299,662,800 DM and actual income was 205,322, 600 DM.
